

Major Incident Response SOP

Indira Gandhi Memorial Hospital

Document version	3.2
Record type	Demonstration operational document
Status	Controlled copy

Purpose

Establish a coordinated response for incidents that exceed normal hospital operating capacity.

Activation

The Hospital Incident Commander activates this plan following a critical infrastructure failure, mass-casualty notification, or internal emergency.

Immediate actions

Confirm scene safety, open the command post, protect critical services, account for staff, and notify the Ministry coordination team.

Communication

All operational updates must be recorded in RAHS Hospital Operations and linked to the urgent escalation task.

Demo record - replace with the approved facility document before production use.
